Amy McWhirter is a dynamic and engaging international Corporate and Trade Show Presenter, Moderator, MC and Host. Clients and audiences consistently appreciate her warmth, professionalism, credibility, and ability to truly engage and empower people.

Audience members and company staff often mistake her for an actual employee of the company, assuming she's been proficient with the industry material for years.

Absorbing your company's products and services, Amy can master any script in any industry. She has a unique flair for transforming technical and medical information into easily understandable and relatable conversation, with the ability to improvise and think on her feet, adapting to the changing variables of a live event.

Amy is a partner to your company's team, working closely to ensure more qualified sales leads and maximum ROI!

## Why hire a professional Presenter? An experienced presenter will...

- **Engage** audiences consistently, drawing customers into your booth.
- **Increase qualified sales leads**, connecting customers with your staff.
- Transform technical concepts and scripts into **relatable conversation**.
- **Sound natural**, as if she has been working for the company for years.
- Represent your company, messaging, and brand with **high energy**.
- **Build your Brand** as the face and voice of your company.
- Provide **scripting services** to personalize existing script or write from scratch.
- **Free up staff** to answer questions and perform 1-on-1 demos for clients.
- Provide **consultation services**, booth training and **staffing**, presenters, speakers, narrators, moderators, crowd gatherers, demonstrators, brand ambassadors.
- **Be Credible!!** The result? Audiences assume presenter has been working at the company for years, knows her stuff, and they want to learn more.

What some satisfied clients had to say:

*"Several times a day our own employees asked me if we hired someone new because she was that believable. If you didn't know firsthand she was a professional speaker you would think she is visiting our customers and talking about our technology on a daily basis."* - Renee Etiopio, Corporate Marketing Manager | INX

*"Simply Amazing! That is how I would describe Amy. She is the most professional and fantastic presenter. Her stage presence, her ability to hit the message consistently on target every time, her ability to absorb and learn the technology, and her skills in making script change recommendations for the best message, makes her absolutely unique. I have worked with Amy in two different companies now, and over a number of years, and I expect that I will be working with her in the future as well. I would highly highly recommend Amy, as I have yet to meet or see any other presenter that is even close to what Amy delivers. "*

- Yama Habibzai, Chief Marketing Officer | ScienceLogic

*"When it comes to professional, attention-grabbing and consistent presentations for any public venue, Amy is a must have! She has the perfect combination of energy and professionalism that instantly lends credibility to practically any presentation. You really brought my script to life and truly spoke to the audience."*

- Mike Guillory, Manager WW Marketing Communications | Texas Instruments

*"Amy is amazing to work with. Our company has worked with Amy for several years having her present highly technical medical equipment and software at multiple trade shows. She is a true professional. She was able to easily adjust to our last minute changes and provided excellent suggestions to make our presentations more impactful. Amy delivered our multiple presentations numerous times during the day, perfectly every time. I would highly recommend Amy."*

- Tom Chadwick, Senior Business Marketing Manager | Elekta

*Local to Chicago and travelling nationally and internationally*
