

Come to Mary Gosden's Book Signing

Mary Powers Gosden is a local artist and one of our own Cazenovia Artisans. She has made the leap from painter to author, with the publication of her first book, *Art Deco Design: A Workbook*. This workbook is the first of its kind in the world of oils on porcelain, and is a method book for learning how Ms. Gosden designs her art deco pieces, which are largely influenced by the design of William Van Alen's iconic art deco masterpiece: the Chrysler Building in Manhattan. This book is not only for porcelain painters. It is a design workbook, suitable for teaching about the art deco period of design, as well as a step by step, line by line method of how Ms. Gosden designs her Chrysler Building inspired works. From children to college students to retirees (not just people who are already committed to art!) the book is interesting and allows a rare insight into the workings of this local artist and designer's mind. Cazenovia Artisans will hold a special reception and Book Signing on **Sunday, October 22, 2017 from 1-4 pm**. Please come in, have some cider, meet the author, and see how her design mind works.
