

TESTIMONIALS

Hi there - below is a testimonial about SynaptagenX. You are welcome to use this in whatever capacity you choose and also welcome to use my name;)

I have been clean and sober since 1992 and for the past 11 years have been seeing a prominent integrative medicine physician for depression and fatigue. I follow a very healthy low glycemic diet and continue to fine-tune supplements with my physician yearly.

This past spring the fatigue, brain fog, depression, and anxiety came back with a vengeance and no matter what I tried had no relief. This caused me great mental and emotional pain and led me to isolate which brought on even more depression and anxiety. I started trying different psych meds but they just made me feel worse and did nothing to alleviate my symptoms. Then I started SynaptaGenX and within just a few days everything turned around. My brain literally woke up, the fatigue, brain fog, anxiety, and depression were gone and I was able to once again live the full life I have created. I am so very grateful to Dr. Blum for creating this amazingly effective product and grateful to David and Merlene Miller for making it readily accessible. It has been 6 months since I started using SynaptaGenX and have had no return of symptoms. Thank you so very much!!!

Hi Doug,

I am sending this e-mail to tell you how much i believe in this product. I know it has helped my own sons who have had trauma in their lives and subsequently have self medicated with alcohol and drugs. They both have been taking the product and i see a remarkable difference in their behavior and their thinking. They are able to complete projects and are much more able to use their executive thinking skills in a crisis. My daughter sees a therapist and she had recommended them to Cara a while back. She took them for several months and found them helpful as well.

Thank you for the personal touch in the phone calls and the prompt response to voice mails. God Bless you and your work!

sincerely,

suki A.

Shortly after I began taking SynaptaGenX, I felt that I no longer needed anything else. For nearly two years now the only product I take daily is SynaptaGenX and nothing else... no prescriptions for anything, no drugs, no alcohol, and no tobacco – NOTHING. I can't even begin to explain how good I feel!

Bryan S.

On a positive note. I LOVED the SynaptaGenX. It has made a huge and positive difference in my health. I haven't had time to share much about the product yet with my friends. I would like to order more and would like to know if you would still be willing to offer it to me at a 20% discount. I would really appreciate that. It is truly an amazing product and I am very grateful for your help.

Luci A.

I need to get everyone I know to take this product. It probably costs less than a Starbucks and nobody has problems with that. I don't even need to drink coffee anymore. Let's hear it for dopamine receptors or whatever SynaptaGenX does. It rocks my world!

Thank you, thank you, thank you!

P.S. There's a marketing approach for you in this. I don't drink coffee now, and I don't eat as much food anymore either. I used to eat an entire bag of Trader Joe's "Cheetos" on the way home from work. I thought I needed to do that to calm myself down because I was so stressed. I've lost weight and I look great and feel like a million bucks. It seems like a lot of money to spend \$120.00 on a small bottle of supplements. If ppl added up a month's worth of junk food and coffee it would run a LOT more than that...

:) thanks!

Barb K.
