

Meet Me at the Podium!

Mon. 8-15-16 at OPS TAC Building, 3215 Cuming Street in the Board Room

OPS Board Members are planning a vote on amending the OPS Board policy regarding anti-discrimination to include the new categories of **gender identity, gender expression, veteran status, pregnancy, and political affiliation** to the existing policy. Their stated reason is to comply with federal & state laws. But there have been NO federal or state law recently passed that require any of the five listed categories to be added to any organization anti-discrimination policies or bylaws. Adding the categories of gender identity and gender expression to the anti-discrimination policy will place girls at safety risk due to boys being on the girls' teams and being in the shower & locker room at the same time with the girls.
