

**THURSDAY,
SEPTEMBER 20
6:00 PM
DEWITT
AUDITORIUM
DEWITT MATH
OPEN HOUSE**

Please join us for an evening dedicated to providing caregivers with a better understanding of the math program at DeWitt.

- a brief presentation geared especially to caregivers of 6th graders, caregivers of new entrants, and anyone looking for an overview of the math program at DeWitt
- a question and answer session focused on the math program

What is the difference between Math 6 or 7 and Accelerated Math 6 or 7?

My child brought home a flyer about a double acceleration test. How do I know if it is right for my child?

I've heard about a new class called Differentiated Math 8. What is it?

Should my child take Algebra in 8th grade?
