

NO WASTE WATER OR STORAGE TANK NEEDED

EQUIPMENT FEATURES

SANITARY QUICK-CHANGE CARTRIDGES
DECORATOR FAUCET
NO STORAGE TANK OR WASTE WATER
HEALTHY, SPARKLING, CLEAR DRINKING WATER
BETTER TASTING BEVERAGES, SOUPS, AND SAUCES

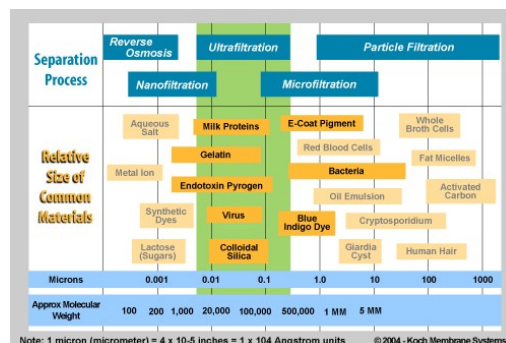

REDUCE CHEMICALS, VOCs, BACTERIA

The CRS-3 Series Drinking Water System reduces harmful contaminants like some bacteria, viruses, and VOC's and turns common tap water into the fresh, quality water that nature intended us to drink. A 3-stage system filters water at the molecular level. The .03 μ hollow fiber membrane is made from a strong poly-meric fiber that removes extremely fine sediment including colloids. The result is simply healthier, better tasting water.

- Environmentally sound water treatment.
- **Cost effective:** the daily cost of bottled water will no longer be a concern.
- **Convenient:** fresh, clean water ready at your tap no more handling of jugs.

**Cartridges pivot out for
easy removal!**

SPECIFICATIONS

Model Number	Max Flow Rate	Service Life	Max Pressure	Water Temp
CRS-3	1 gpm*	5,000 gal*	125 psi	40° - 125°

* Actual gpm and service life production will vary depending on water pressure, temperature, TDS, and contaminant concentration

CRS-3 System Pre-Requirements: Less than 2000 ppm TDS, Less than 200 ppm of Chlorine, Use only on microbiologically safe water
