S	5921 Westlake Blvd.	SOLD	39,000	14,260	0.33 a	2.73	No

FOOTNOTES: Prices have been adjusted down on October 25, 2017 on many of the development lots.

¹ These prices including realtor fees. OVH has listed all of the lots on September 1, 2016 with Lillian Fuentes, with Keller Williams (cell 330-209-3506). Buyer's realtors will be honored.

^{2,3,4} Development Lots- Lots in the development and outlots can be contracted for and held with a deposit for up to 60 days until closing. Builders will be offered a discount.

⁵ Lake O' Springs Village is a planned green community. All development lots 1 through 25 are deed restricted for all homes to be built to a minimum green standard of building known as Energy Star™ homes, which has been developed by US Environmental Protection Agency. Each home will be required to be inspected and certified by an independent rater. Each home will need to produce a score of 60 or lower on the Home Energy Rating System (HERS).

Homes may instead be built to a higher green standard than Energy Star™ such as Zero Energy Ready™ or Zero Net Energy™ as created by the US Department of Energy (DOE). Homes may also be built to be certified under a different rating system such as Leadership in Energy and Environmental Design (LEEDS) created by the US Green Building Council or Maharishi Vastu Architecture (as rated by Fortune Creating Buildings) or any other green energy system that can produce a certified score equal to or less than 60 on the HERS rating system. The green level chosen will be approved along with building designs, construction drawings, landscape plans, and exterior materials and colors by the Lake O' Springs Village Homeowners Association, Architectural Review Committee. All buyers and builders will be required to sign a letter of Agreement committing to build to one of these green standards.

⁶ Outlots indicated by brown and tan colors on our site map are owned by OVH and are outside of the proposed Lake O' Springs Village 25-lot development area. They are available to be sold and deeds transferred immediately. The 1920s small fishing lots are zoned R-1A and will need to be vacated and unitized as one lot in order to build on them. All outlots will not require any specific architecture or builder.

⁷ At this time, no individuals except the owners of lots 19 and 24 and Ohio Vedic Homes, LLC belongs to the association and owns recorded access to the lake. All of the attached lots described as numbers 1 to 25 within the Lake O' Springs Village development when sold will include recorded rights to use the lake and owners will be required to belong to the Homeowners Association. Any outlots sold listed as lots C through S will have the option to purchase a season pass to use the lake but will not belong to the HOA. The lake pass for April 1, 2017 through March 31, 2018 or any portion of that season will be available to a limited number of immediate neighbors and will cost \$375. It can be obtained from David Kidd, Lake Manager, Lake O' Springs Village Homeowners Association. The lake itself and all common ground (35 acres) was transferred to the homeowners association in 2014.

Final Note: The square footages on this price list may not be exact. Various lots are subject to easements for right-of-ways for signage, walking paths, gas lines and wellhead setback restrictions, residential utilities, shoreline building setback, and bio-retention ponds. See Lot Details List for particulars.
