

eMDs Prescribe New Features – September 2019

The new features and enhancements in this release are described briefly below.

Prescribe Medication window

RxBenefit Clarity is a service offering made available by CoverMyMeds and RelayHealth Pharmacy Solutions to provide real-time messaging to prescribers regarding patient benefit information delivered prior to completion of the prescription writing process. This information currently is available in the **Real Time Benefits** section on the Prescribe Medication window.

Alternative Medications (when available) have been added to the **Real Time Benefits** section on the Prescribe Medication window. The information displayed for each alternative medication includes drug name, quantity, and patient cost. Click a medication link to display the Drug Substitution window, where you can view and select to send the alternative medication to the pharmacy.

The screenshot shows the 'Prescribe Medication' window for a patient named MANYALTS, BENEFIT. The main window displays prescription details for azithromycin 250 mg tablet (generic). A 'Real Time Benefits' section is visible, containing a table of 'Alternative Medications' and a 'Drug Substitution' window for azithromycin.

Medication	Quantity	Patient Cost
azithromycin 250 mg capsule	#30	\$18.00
azithromycin 250 mg tablet	#30	\$24.00
azithromycin 500 mg tablet	#30	\$20.50
azithromycin 250 mg tablet	#30	\$27.00

The 'Drug Substitution' window for azithromycin shows the following details:

- Drug: azithromycin (Zithromax 250 mg and 500 mg Tablets ...)
- Pharmacy: PUBLIX PHARMACY #0033, 3805 SANDY PLAINS RD, MARIETTA, GA 30066, (770) 578-6800, (770) 578-6241
- Patient Cost: \$18.00
- Insurance Responsibility: \$0.00

The drug search has two new tabs, **My Favorites** and **Clinic Favorites**, that replace the **All Favorites** tab.

The screenshot shows the 'Prescribe Medication' window with the drug search interface. The search results are displayed in a table with columns for Drug Name, Dose, Sig, Dispense, and Refill. The 'My Favorites' and 'Clinic Favorites' tabs are highlighted with a red circle.

Drug Name	Dose	Sig	Dispense	Refill
Mobic	7.5 mg oral tablet	take 1 tablet (7.5 mg) by oral route once daily	30	2
Tylenol	325 mg oral tablet	take 1 - 2 tablets (325 - 650 mg) by oral route every 4-6 hours as needed	0	0

Authorized users will be able to delete medications on the **Clinic Favorites** tab.

The current yellow star icon label is changed from **Make Favorite** to **Make My Favorite**. A new blue star icon has been added for **Make Clinic Favorite**. If a medication is not set as **My Favorite** or **Clinic Favorite**, the star will be white.
