

**Macon Mayhem Zach Urban 2017-19 game worn skates, size unknown.**

Defenseman Zach Urban played two seasons for the Macon Mayhem beginning in 2017. In his first professional season, Urban played 36 regular season and six playoff games, scoring one goal with 17 assists. During his second season, Urban made his ECHL debut with the Toledo Walleye on December 30, staying with Toledo for ten games. Urban played 40 games for the Mayhem, scoring one goal with thirteen assists. These Bauer Supreme TotalOne MX3 skates offer a new injected stability lacing system which allows for increased forward flex and features integrated lace locking eyelets. The Comfort Edge around the ankle and Free Flex Tendon guard both allow for comfort and mobility while locked into the skate with a fully moldable boot. Users may customize the flex with the use of Bauer's tongue inserts which allow for three levels of stiffness. These skates also use the Tuuk Lightspeed blade holders allowing for quick replacement of blades. There are two custom spacers between the heel and blade holder. They were worn by Urban during his two seasons with Macon. The size could not be determined but labels bearing the name URBAN are affixed to the bottom of each skate. I purchased these skates directly from the player at the end of the season.
