

University of Georgia Dixon Babb 2014-16 game used jersey, size XL.

St. Johnsbury, Vermont native Dixon Babb played for three seasons with the Ice Dawgs and was selected to the 2015-16 3rd Team ALL SECHC team. Before attending the University of Georgia, Babb played hockey in the Atlanta area and was a member of the 2009-10 Alpharetta High School team that won the state championship. This black AK jersey was worn for at least two seasons by Babb. The Ice Dawgs wordmark logo on the front is embroidered to the jersey. On each shoulder are UGA primary logos also embroidered directly to the jersey. Sewn on the left shoulder is an embroidered teal, gray and black Managed Medical Transport sponsor patch. The University of Georgia G logo is embroidered to the lace up neckline underlay. The numbers and the alternate captain A are two color sewn twill. A circular area of adhesive residue is visible on the right rear hemline where the heat pressed AK logo was originally located. I purchased this directly from the team.
