

University of Georgia circa 2012 replica jersey, size XL.

The University of Georgia club hockey team uses jerseys during multiple seasons. According to the team, these CCM jerseys were replaced with a new design that incorporated the large dog head on the front in 2012. The three color twill G logo on the front is sewn to the jersey. The numbers are three color sewn twill. The CCM logo is heat pressed on the right rear hemline. The design is similar to the alternate jerseys worn by the NHL Buffalo Sabres from 2000 to 2006.
