

University of Georgia circa 2006 game used jersey, size 58.

The University of Georgia Ice Dawgs frequently utilized jerseys during multiple seasons, so it is sometimes difficult to determine definitively who wore some of these older jerseys. I was able to locate a team photo purported to be from the 2006-07 season showing the team wearing these jerseys, but the team roster from that season does not list any player wearing number 5. During the previous season, defenseman David Rosenberg wore number 5, but he emphatically stated the team did not wear them in 2005-06 and Rosenberg graduated in 2006. It is very possible that this was an extra jersey that was not game used. This pro style silver jersey by OT Sports is constructed with dazzle fabric with sewn on red, black and white trim. It has a lace up neck and sewn on two color twill letters and numbers. A pair of embroidered G patches are sewn on the shoulders. It also has a fight strap. I acquired this jersey from an eBay auction.
