

**University of Georgia Grant Schwartz 2013-16 game used jersey, size 4XLG.**

Grant Schwartz played five seasons in the North Texas Hockey League before heading east to Athens and the University of Georgia in 2013. This red AK jersey was worn for at least two seasons by Schwartz. The University of Georgia dog head logo is embroidered directly to the jersey, as is the Ice Dawgs wordmark logo below the lace-up neckline and the Georgia G logos on each shoulder. The numbers are two color heat pressed twill with simulated stitching, and are loosened from the jersey in several areas. A circular area of adhesive residue is visible on the right rear hemline where the heat pressed AK logo was originally located. The player's autograph is located on the top of the number three on the back. There are several puck marks in the front. I purchased this jersey directly from the team.
