A young man can be found in his bedroom, and it just so happens that today is his 13th birthday. He will embark on great quests that include his friends, his father, his friend's wine mom, cakes, imps, and a video game that could potentially destroy the entire world. A book that one will surely never forget lies in store here, and with intrusive notes from the author explaining what on earth he was thinking when he made this, the *Homestuck* series from online has become immortal. Enjoy the beginning of this ride, it's a long one.

When I was in middle school, I remember hearing about the *Homestuck* series from online, so when I got the chance to read a book version of the first acts, I leaped for it. While it can be confusing at times, it is also funny, spontaneous, and clever, making this a book I plan to read again in the future. I would recommend this book to teenagers and older due to language and complexity.

Recommended Titles:

Homestuck, Book 2: Act 3 & Intermission by Andrew Hussie
