This Book is Full of Spiders was the most terrifying and hilarious book I have ever read. It combined the two genres I enjoyed the most to end up with a book that just blew my mind.

This book was about our hero, David Wong, who one day wakes up with a huge spider like creature trying to kill him. With this comes a series of events that lead onto a full-scale epidemic of people controlled by the spider like creatures. Follow our hero as he goes on to develop a cure and save the human race!

Filled with gruesome gore and twisted humor I would recommend this book for teens in high school or up, and mostly boys. This ridiculously well written book will keep you shivering in fright as well as hurt your insides with laughter. I would rate this book a 15 out of 10 and would definitely recommend it a pick up. Just remember ...to stay away from spiders!
