## PAMET NorCal Celebrates Silver Anniversary

### 25<sup>th</sup>

It was a night of celebration full of recollections and great entertainment that our colleagues in Northern California celebrated their 25<sup>th</sup> anniversary at HS Lordhip in Berkeley, California on May 3, 2014. As always PAMET NorCal has shown the vigor in their commitment by their accomplishments in review classes, continuing education, civic and charitable activities. Current president of PAMET-USA, Mrs. Evelyn Ramirez and PAMET-USA's first president, Roderico Sumilang were present, the latter giving the keynote address for the occasion. Congratulations PAMET NorCal!!! Your dedication and commitment to our organization inspires us all.

## Travel to the Philippines

Please be aware that measles outbreaks have been reported in the Metropolitan Manila area, Calabarzon, and Central Luzon. The CDC has travel advisories for those traveling to the Philippines which includes measles vaccinations for infants 6-11 months of age (one dose of measles vaccine) and children 12 months of age or greater (2 doses of measles vaccine),.

For more info visit the following website:  
<http://www.ncdc.gov/travel/notices/watch/measles-philippines>
