

A NEW MILLENNIUM OF  
**BOAT LIFTS**

YOU'VE MADE THE INVESTMENT, NOW

# ENJOY THE WATER

When I founded Hurricane Boat Lifts in 1998, I was guided by a simple principle: to design and build the highest quality, most attractive lifts at affordable prices. Over the years, I have seen too many vessels on lifts that could only be described as eye-sores. I wanted Hurricane Boat Lifts to be as aesthetically pleasing, as the vessels they protect.

After a decade of major storms, such as “Super-storm Sandy” that devastated the mid

Atlantic, I received numerous phone calls and emails from satisfied customers sharing stories, along with photographs of the aftermath. Our customers’ heartfelt appreciation for their boats survival through these storms is extremely gratifying to us here at Hurricane Boat Lifts. We use the highest grade aluminum for marine applications, which allows us to offer warranties and safety factors unequalled in the boat lift industry.

We have multiple retail store locations and an international network of dealers ready to help you choose the right lift for your needs.

With a quality product that is affordable, and with customer service and satisfaction as our top priority, I ask you to locate your local Hurricane Boat Lift dealer to show you why *We Blow Away the Competition!*

Sincerely,

Tracy Radcliff  
CEO & President

HURRICANE MACHINISTS' CRAFTSMANSHIP AND ATTENTION TO DETAIL GIVE YOU NOTHING LESS THAN A MASTERPIECE. WELCOME TO THE EXCELLENCE OF HURRICANE BOAT LIFTS.

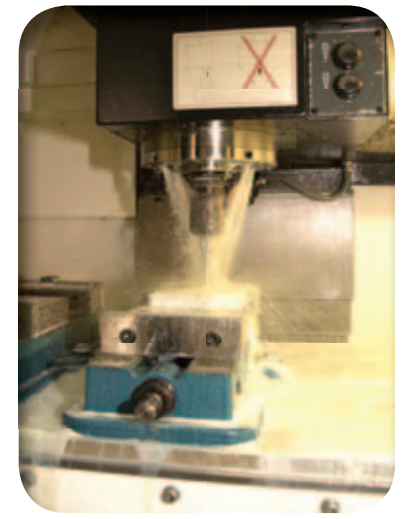

Hurricane Boat Lifts brings you the **FUTURE** of boat lifts today.

We **MANUFACTURE** every aluminum part that we put into our

lifts. One look at a Hurricane Boat Lift and you will see the **QUALITY**, **PRECISION** and **PRIDE** put into every lift we build.

# ELEVATOR LIFT SYSTEMS

CATEGORY

For those who demand the very best in an elevator lift, we use Nylatron cupped wheels and stainless steel wheel brackets on all of our elevator lifts. We are the only manufacturer with adjustable cable keepers standard on all of our elevator lifts. We are the number one manufacturer of elevator lifts in Florida, if not throughout the world.

#### STANDARD FEATURES:

- Elite Head Unit with Adjustable Cable Keepers
- Oversized Grooved Winders
- Half Wrapped Carpeted Bunks
- Stainless Steel Brackets
- Cupped Nylatron Wheels
- Maintain Switches

EVERYTHING YOU NEED TO KNOW ABOUT

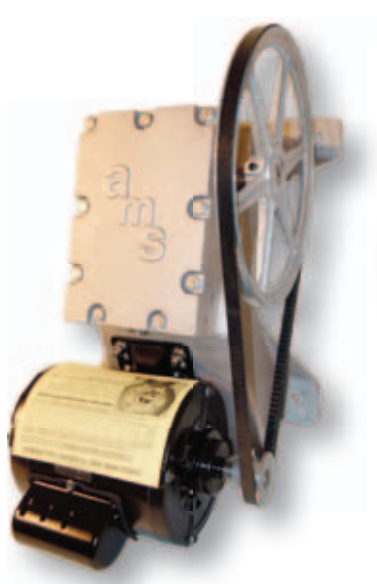

# CHOOSING YOUR GEAR

We have the gear drive for you: from the 50 year industry standard flat plate gear drive to the unsurpassed speed of the Hurricane "UHS" Ultra High Speed Gear. With all our available options, why look anywhere else?

**Marine Flat Plate Drive**

This flat plate is available for lifts up to 16,000 lbs. The flat plate has been around for over fifty years. Available in galvanized or stainless steel, this flat plate has stood the test of time and delivers quality and cost effective lifting power. Comes with a warranty up to 25 years.\*

**ASM EBD Drive**

This gear is an enclosed belt drive system that is double the speed of the flat plate gear. The gear features a double sealed output shaft, rigid cast aluminum case and has speeds up to 47" per minute. Available on lifts up to 13,000 pounds. Comes with a 5 year warranty.\*

**Hurricane Direct Drive Gear**

This is our most popular gear with safe, quiet operation. This gear has been reliable and is aesthetically pleasing. This gear contains both a bronze worm gear and a bronze main gear providing years of safe operation. Comes with a 5 year warranty.\*

**Hurricane UHS Gear**

This Ultra High Speed (UHS) gear comes in a sleek design. The UHS gear is fast, quiet, maintenance free and will provide you years of trouble free service. The UHS gear is available in speeds up to 80" per minute depending on the weight of the vessel. Comes with a 5 year warranty.\*

# PROTECTING

YOUR INVESTMENT WITH

LIFTLOCK™ is Hurricane Boat Lift's revolutionary storm/theft protection. If you keep your boat on a lift, the Hurricane LIFTLOCK™ protects your boat from damage during severe storms by locking your boat lift to its pilings. It locks the lift securely to all the pilings so swaying is totally eliminated. By eliminating the swaying effect during a storm, the boat remains stationary, securing it and your pilings. This device actually stiffens the piling

system, making the boat lift one assembly! Add the lock to help prevent your boat from being stolen. The unit can be easily installed and removed by the consumer. It can also be stored on the boat lift.

- Works with ALL Cradle boat lifts (even our competitors)
- Stiffens the piling system
- Stores on boat lift
- No tools needed
- Installs in less than 10 minutes
- Patent No. US7,765,945 B2

Elevator LIFTLOCK™ System

Built-In Tie Down System

Locking Pin System

Lift Alert™ by Hurricane is the only boat lift security system in the industry!

The Lift Alert™ Lift Communication System is an all-in-one wireless system that combines high-security and monitoring applications on your boat with ease of use and unique features. The wireless sensors monitor intrusion, high water, shore power loss, low batteries and much more!

- ! Receive instant emails and/or text messages automatically on any event
- ! Free smartphone app allows you to arm/disarm the system remotely
- ! Information at your fingertips instantly
- ! Alert police or sheriff department
- ! Can be integrated seamlessly with your wireless home security system
- ! Color touch-screen interface
- ! Intuitive, user-friendly interface on control panel, your computer and web-enabled phone
- ! Customized and configured in almost any manner to meet your specific needs
- ! Monitor locally or from afar
- ! The latest and most advanced boat security and monitoring solution in the industry
- ! The most reliable cellular communication option available in the industry
