

They Really Blew-It with the Boston Marathon Bombing. The Acting and their Story Was Almost as Bad as 9/11, London, or Sandy Hook.

Responding to the pictures of the obviously 'fake scene' at the Boston Marathon Bombing.

Paid Mercenaries or Contractors from the same organization of the men we saw hanging from the bridge in Fallujah Iraq. They're heavily used in Afghanistan, as they're needed for heroin running. While we bear witness to one fleeing after dropping his backpack, we have pictures of a Tamerlan after the blasts still wearing his.

Any First-Responder's know the scene at the finish-line was fake. They ignore this man (and work on others first) with both legs blown-off even though he'd only have 2-3 minutes prior to bleeding-out. Without tying off his legs and placing him upon a stretcher, here he's sitting upright in a wheelchair 7 minutes later being pushed away from all the help towards a dedicated alleyway!

Sgt. Nick Vogt received minimum \$630,000 in donations from his fellow citizens.

Picture of Tamerlan, naked and handcuffed:

Not a scratch on him! I thought (patsey) Tamerlan died in custody from gunshot and explosive wounds?

The time has arrived to call-out the C.F.R. and Secret Societies (Mason's) for their attempt at complete control of Washington.

Enough with the Israeli False-Flag (Hegelian Dialect) Terrorist Attacks

We'll even call-out everything from their theft of \$trillions from the pentagon to their immoral & innumerable Fake Non-Profit's to steal your money, etc. etc. etc.
