

23 April 2019: WhatsApp Message

Hi Arthur, I'm Niel's sister Anke. You were praying for me ±2,5 years ago. I had a heart condition whereby my heart was beating much higher than normal/safe. It was unsafe to do many types of exercise due to this condition, as my heart went into an arrhythmia when the rate rose above 170bpm. I was told that I would need to be on chronic medication - indefinitely. End of 2018 I however decided that I wanted to see how my heart responds without the medication

(the medication slowed down my heart rate by 20bpm, so that my heart does not work itself into pre-mature failure). I reduced my dosage and went for a check up a month ago, where a EKG, Sonar & 24 hour heart analysis was done. I am ecstatic and in awe to share the great news that I no longer have the heart condition i was diagnosed with - Doctors cannot explain it and said to not use the medication again as my heart is operating at an optimal pace/rate rhythm by itself. Thank you for all your prayers, thank you for being obedient. Please let me know if there is anything you ever require prayer for.
