Sir, I want to thank you very much for your time and patience and coming all the way just to help us out from our problems with prayer. You are one in the million, I've never see a Prophet like you who don't need nothing to us only offer to help without any payback of anything. You really true man of God most people want to meet you. Because we gave them our testimony about you and how God is using you. You are the reason why we believe God

is alive. Even my oldest Brother he was so worried when he heard that you where here at our place. He ask me to call you again but it was too late coz you already left Walmer. All I want to say is thank you thank you may the lord continue using you and add more power in you. God bless you man of God!
