(Text message from Jasper)

My brother in Canada was in heavy pain for 3 weeks, then the pain went to his stomach. His stomach became swollen with heavy fever and pain. I called him from South Africa and prayed for him, his pain got a bit better. I send him the prayer on the FBMI website. After listening to it over and over again. The pain and fever started to leave and swollen stomach became smaller day by day. After 2 days he let me know that he is now 100% Healed. All the Glory to God. There is Power in the name of Jesus.

He was so sick that he almost cancel his trip to SA. But he just let me know now that he and his family is at the Airport coming to visit us. Hallelujah.
