

## 5 December 2017

Leon's son was in hospital in a coma. He got a hold of the general prayer off the website and played it for his son. When we followed up with him later and asked him how his son was doing, this was his testimony of what our Lord Jesus had done for them:

“Very well he is calm and completely healed. Did not touch alcohol since that day. I did play the prayer and prayed for him while they told me that he had no brain function. He somehow remembered my prayers and told his mom he remembers every word. Our Lord is mighty and gave my son another chance. All doctors said they can't understand it because he theoretically was brain dead. Thank you”
