### Terms of Acceptance

**VERBAL SUBLUXATION:** A misalignment of one or more of the 24 vertebra in the spine, or within the extremities, which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer to diagnose or treat any disease or condition other than vertebral and extremity subluxation. However, if during the course of a chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

**\*\* Possible Adverse Reactions to an Adjustment\*\***

**Soreness:** I am aware that like exercise it is common to experience muscle soreness in the first few treatments.

**Dizziness:** Temporary symptoms like dizziness and nausea can occur but are relatively rare.

**Fractures/Joint Injury:** I further understand that in isolated cases underlying physical defects, deformities or pathologies like weak bones from osteoporosis may render the patient susceptible to injury. When Osteoporosis, degenerative disk, or another abnormality is detected, this office will proceed with extra caution.

**Stroke:** Although strokes happen with some frequency in our world, strokes from chiropractic adjustments are rare. I am aware that nerve or brain damage include stroke is reported to occur once in one million to once in ten million treatments.

**Nutritional Supplements:** If I have a medical condition and taking prescription medication, I agree to discuss with my medical doctor any nutritional supplementation that has been prescribed or taken from Knutson Chiropractic.

**I have read and fully understand the above statements.**

**All questions regarding the doctor's objectives pertaining to the care in this office have been answered to my complete satisfaction.**

**I, therefore, accept chiropractic care on this basis.**
