

Vets that Treat Hedgehogs in New England:

This list will be a continuing work in progress. If you have a great vet in your area that treats hedgehogs and you would like to share. Please contact us with the info and we will add them to the list.

Also, we would love to hear about your experiences with the different vets, so please feel free to contact us about that as well.

All our hedgehogs are seen at All Pets Medical. Dr. Annette Herbst is wonderful. She cares about our animals and provides them with the best medical care. All her staff

are kind and friendly. Annette is able to always get the hedgehogs to open up for their exams without sedation (like some vets use). All around, its a great place. We could not ask for a better veterinarian to treat our quill kids, she truly is passionate in all that she does. She really does care and it shows with how much all the animals she treats, they all love her, as do we.
