“Live as a credible witness. If our actions don’t line up with the message we’re proclaiming, we risk losing our credibility.”
David Jeremiah

- After more than three weeks in hospital, LEONIE BUITENDAG is in ICU recovering from surgery to repair a sinus condition which has caused excruciating headaches and other complications. Please pray for successful surgery and a pain free recovery for Leonie.
- Please pray for healing for FELISITY MAJOMBO who has a very bad case of tonsillitis.
- MAXI VAN DER WATT, who has been on our prayer list for a number of weeks after a bad fall, was admitted to hospital this week in severe pain. After a number of tests, it seems damage from previous back injuries has been exacerbated and the only treatment option is pain management. Please keep Maxi and the Towsen family in your prayers.
- MOLLY JEFFREY, who suffers from Emphysema, is being treated in ICU with a very low oxygen count and an inflamed lung. Please pray for successful treatment and her recovery.
- IRMA CROXFORD, (chronic hip problems), was admitted to Frail Care at the La Vie Brentmed for care and treatment. Please pray that Irma will settle in comfortably and for comfort and peace for her daughter Shirley, who is very distressed.
- ALAN HEATLIE, (New Zealand), has developed further problems resulting from a spinal injury two years ago. He is consulting a specialist next week and we pray for correct diagnosis and treatment.

PRAYING FOR OUR CHURCH FAMILY THIS WEEK

We pray for Victor Sharpe and family.
