

# the author

Katie Alexander spent the last 13 years building a prominent career in strategic planning and business development, but the most important job has been a loving wife and mother to two beautiful girls, Ella and Meadow. Her mission in life is to bring balance to home and the work place, all while living for Jesus. She has spent many years leading women's Bible studies and helping guide others on their journey to the freedom that can be found in Christ. She translated this passion into a heart felt book based on finding a way to set your soul free from the bondage of guilt over being a working mom.

# what are people saying?

"This book is SO SO good! I'm walking away from this book with so many nuggets of truth; about what God thinks about me and my role as a mama, words of wisdom and scripture to tuck away in my heart and apply to my life, freedom to live and parent without guilt or shame, and the reminder that I am not alone in this journey. This book is a treasure. A must read for every working mama, for anyone that has ever experienced mom guilt or shame because their journey may look different than what social media portrays, or for the mama that just needs to be encouraged and fed truth.

To all the mamas out there, this book is for you!"

-- Amazon reviewer 8/13/19
