COVID-19 Update 1 March 20th 2020

Friends in Spirit,

At ATC Australia we truly believe that we have built a solid base of friendship and trust with all of our customers within Western Australia, South Australia and Interstate as we hope to with our new customers this season. Regardless if you're a gym of 400 or 30 members, we value and support all of you as our customers, our Friends, and our Spirit.

The health and safety of our athletes, coaches, employees, families, and friends is our top priority. As the world is being affected by the Coronavirus (COVID-19) we are diligently monitoring and closely watching official information from health authorities such as Health officials of the Australian Government, the World Health Organization ("WHO") and Centre's for Disease Control ("CDC") and how it relates to our community and industry.

We are taking proactive, preventative measures for all of our employees and events. In regards to proactiveness and our events, we feel that it's important to notify you that we are working closely with our hired venues in each state to find areas in the calendar year which might provide opportunities to make any potential and necessary adjustments to the 2020 competition season.

In times that seem to be delivering a level of potential uncertainty and high levels of concern to our lives, we feel that it is very important to let you know that we are here for you. We are doing our part to prepare for the potential unforeseen changes and challenges that COVID 19 will be bringing to all of our lives. Please stay tuned for any further updates regarding the Coronavirus (COVID-19). We are here if you need us, we know we will need you.

Stay safe, Stay Healthy.
