SILVER MASTER PACKAGE

Purpose of Package

The purpose of the Silver Master Package is to provide excellence in your search engine rankings and to start giving more life to your website. This includes doing design rotations, keyword rotations and adding different elements to your website (such as image sliders, videos and documents). Your audience will notice that the website stays fresh and maintained. By having your audience see this, it will help your branding and also gain the trust between you and your client. Google, Bing and Yahoo will also see this as a positive for your rankings in the search engines results page. We are also going to provide custom graphic design services for your website branding and marketing.
