*The street of the incident*

I was walking my dog and I looked at the sky. I saw a white ball and 4 airplanes chasing the ball. It flew from west to south. It remained visible couple of minutes and then disappeared; planes have then turned to fly back. It is not my first sight experience. 2 times before I saw closer - about 100 meters above me - but I did not find a web-site to report. It happened 2 months ago. It was a ball shaped object and emitted light like a lighthouse. It stood there for few seconds and then it slowly left towards south.

The sighting took place in Semic, between Vajdova ulica (*ulica means road*) and Taborska ulica.

**Reliability evaluation:**

**- high -**

**probably something really seen by the witness;  
one single witness only: no reports from other residents;  
insufficient details; possible military craft or experiment;  
no investigation available**
