

## **2008: Navo Nadi, Fiji**

November 23, unspecified hour of Sunday night

Source: e-mail of witness to NUFORC

*Navo Nadi today*

Two bright light objects distinctive from stars or plane. They were stationary most of the time but going up and down slowly. They brightened up and then dimmed. when an aircraft came; one made a lighting dash and appeared at another position. Then it disappeared after sometime. This event happened at Navo Nadi, Fiji. Pictures of it were taken with a Samsung camera mobile cell. Duration one hour  
(NUFORC Note: Two planets in the southwest sky are quite prominent, currently.)

### **Reliability evaluation:**

**- medium -**

**one witness only; probably they were planets;  
no investigation report available**
