*Place on "Mtacminda" where David D.
had his encounter of the Third Kind.*

"I want to tell you about a fact, which was repeated and told to us that in the universe may be another civilized planet. It happened in 1989 on 4th of July at the 9:30 pm. In the Ortachala (place in Tbilisi, Georgia) I took a girl I knew and drove her home. At Davitashvili Street, near the restaurant "Samadlo", I saw that the water in the engine was boiling. I

stopped the car and went to get water. When I came back the girl wasn't in the car. I don't remember if I filled the radiator or not. I turned on the car and drove ahead onto the "Mtacminda" park. As a rule I always drive that way to go home. On the "Mtacminda" road I saw a woman, which was trying to stop my car. I couldn't decide to stop or not and after driving 15 meters further, I looked back in the mirror and the woman wasn't there anymore.

I continued on my way. I stopped the car near "Mtacminda" park and went into the restaurant to see my friend, but he wasn't there. On that day I didn't have any plan to see him. After 500 meter, when I drove back, my car engine suddenly stopped. I don't remember my car ever doing this since I have had it. I got out from my car and rolled it back. At that time I felt that some kind of invisible field was operating on me and was taking me somewhere. The road was dark. I walked approximately 200 meters, when I saw a "Flying Saucer".

It was standing to my left on three legs. All around it there were colored lights. At the bottom there were stairs and illuminated windows. From the "Saucer", 15-20 meters away, four figures were standing.

They were 2.5 or 3 meters in height. I wasn't scared, maybe because of that hypnosis like force, which was forcing me to stay in that place, kept me from being scared. They also were not afraid when they saw me. One of them came close to me and tried to establish contact. I was trying to understand. First he was talking in this strange language. Next he started talking in Russian. He asked how old I was. I answered. Next, he told me that they aren't the first here and that they will come again. He said "We come when it is a necessity". He told that we are immature and that we have simple primitive technology.

Next, I felt warm behind, I turned and saw that one of them was measuring my height, talking to only one of them. I put my hand on my watch and made gestural that it was late and I was

in a hurry. He asked "Do you have a phone at home". I answered "I do, but how can I call from here?". He went into the saucer, walked up on the gangway where the light was coming from. When he came back he held a strange apparatus. The device was lit up with different colored lights and strange signs, which was like hieroglyphs.

I understood it was a phone and I dialed my home number. The voice that was coming from the apparatus and light, which lit up from the voice, indicated that nobody was taking my phone call at home. Then he took the apparatus back without speaking. Afterwards, he came back and told that they wanted to take us (I don't understand, what they mean "us"), that they wanted to help and that they aren't coming with a bad intention. I asked "what if I come with you, will you bring me back." He didn't answer because on the small transmitter (in my mind, it was a transmitter, all four had it on their breasts) was a lighted red colored bulb and I heard a low siren like voice. When he heard that signal, he went into the saucer and took me with him.

Inside the saucer I saw TV-like apparatus. I saw all of my body. The picture was colored and clearer than on a X-ray set. I saw how my heart worked, my stomach and other organs. At that time my interrogator came back. He told me that I was free and I could go home. I told him my car wasn't working. He calmed me and said "Don't worry, your car will be ok." I came back and sat in my car watching at the UFO pushing stairs in, to then lift up into the sky.

At approximately 60 meters of altitude it reduced speed and turned on its side and climbed into the air. I heard a low humming sound. The car started and I went home. On 11 July at the same place I saw a black spilled liquid, which has the smell of the oil. I want to tell you that the liquid on the third day wasn't there anymore. Consequently, after our encounter,

they were there once more at the same spot and they stayed that time:”

Another sighting in the same area, several days after the contact case mentioned above:

12 July 1989. 0:01 am. Okrokana, Georgia. Georgian Scientist Academy's Physician Institutes engineer Tamar Manaspulo with her daughter, Rusudan Nutsubidze, saw a strange phenomenon:

A saucer shaped lighted object hung over Tbilisi approximately 400 meters in altitude, comparable to the TV tower's height. After 1 or 2 minutes a thin arrow of light came down. After 5 minutes on the TV tower lights turned off.

Reliability evaluation:

- very low -

one single witness only; no investigation;

no evidences; possible fabrication and inconsistent details
