Sketch of the entity

The Waldeck hills

The witness was out walking with her dog in the Waldeck hills, when suddenly her dog laid down on his back and started to whimper. The witness had to lift her dog and take it in her arms. At first she heard a low sound, which ceased after about

30 seconds. A large round object, whose diameter measured 10 to 20 meters, was floating above a clearing and suddenly began to glow with an incredible bright light, lasting about 20 to 30 seconds. After that, its light dimmed and now it had a metallic appearance. The bottom of the oval craft glowed in a dark red color (like glowing charcoal) and the object lowered itself silently to the ground. In the meantime, the dog had escaped. The witness, who was completely blinded, wanted to run away, but was hit by a “blue ray of light”, which paralyzed her. She was breathing hard and shortly, trying to call for help in vain, and she got completely wet with perspiration within 30 seconds. Then “there was a voice” sounding female and somehow metallic, which said: “Don’t be afraid, nothing bad will happen to you”. On the contrary the witness actually became even more afraid and nearly panicked. The ray of light changed to green and her hard breathing improved. All of a sudden, two entities were standing in front of her, both between 1.40 or 1.60 meter in height, with bald heads and gray skin. They had normal human like eyes and noses. They wore dark green overalls. On the chest they carried a strange symbol, which resembled this “^C L”. She did not understand their language. They soon returned to the craft, which was standing on 4 legs about 1.50 meter high. The green beam vanished and the witness felt to the ground in a faint. It was 9:30 pm when she woke up again. She took a few steps and vomited. She vomited again after reaching home, where her dog was already waiting for her.

Reliability evaluation:

- low -

**one single witness only; no investigation;
possible confusion with helicopter giving birth
to additional invention; no evidences**
