

2007: Chuen Lung, Hong Kong

August 26, 2:33 am

Source: e-mail of the witness to an unknown site

Mai Mo Shan Country Park, Route Twisk

“I observed a UFO at 2:33 am in the sky, from my bedroom and watched it for approximately 8 seconds. Our bedroom has a huge window which faces the mountain side, pointing towards the East (if I am not mistaking). As usual, I have the tendency to observe the sky, just in case that I should see something unusual. At 2:33 am I saw something move very rapidly in the sky. When I approached the large bedroom window, that is when I was able to see three white lights in the formation of a triangle, but with rounded edges. This object that I observed for no more than eight seconds maximum, seemed to go very rapid, in erratic movements. This UFO was headed in the direction of South-East towards North-West.” Chuen Lung is in Mai Mo Shan Country Park and the site is on the side of Route Twisk

Reliability evaluation:
- high -
one single witness only;
no investigation on possible air traffic;
possible confusion with military craft
