

2008: Vilnius, Lithuania

September 27, 0:40 am

Source: e-mail of the witness to ufoinfo.com

Frame including the object

There were about 12 objects flying towards to me. They stopped when I started recording with my camera. Then they made a strange formation for a while and after that quickly went up and disappear.

UFOinfo inquiry note:

As with other similar reports I asked the witness to have a look at the UFO Balloons website to see if this is what might have been seen and received the following reply:

“Hello John Hayes, I am from Lithuania Vilnius and I can sure you that there was NSO not balloons. 100percent. Sorry for bad English. Can balloons go high to the sky and disappear in 3 seconds I don’t think so.

There was a formation like I saw in this video.

I will send 2 pictures of object one closely taken other far. I have video but I wont send it now I promise that I will send later. Please look at these pictures. Thank You. Please write me what You think.

Ps: these objects did not make sound. I can't explain that.”

Reliability evaluation:
- very high -
one single witness only; no reports from other residents;
possible military artifact and apparently
no relation with UFOs
