

2007: Portomaso, Malta

July 29, after 6:58 am

Source: web site thinkaboutit.com

Very bright white light the size almost of the moon, round and heading ahead of us started floating and then after a few seconds it darted very fast, again it came back and darted again. It was seen out at sea, about 2 miles off from Portomaso.

Reliability evaluation:

- medium -

**no reports from other sources; insufficient details;
possible military craft or helicopter;
no investigation on air traffic**
