

THE LEADING LADY LEADS ARE MADE
FROM SOFT, SUPPLE, YET VERY DURABLE
BETA BIOTHANE.

What is BioThane®?

BioThane® is the brand name of all coated webbing products made by BioThane Coated Webbing Corp. It's basically a polyester webbing with a TPU or PVC coating that makes it more durable, waterproof, easy to clean and weldable.

Why is BioThane® better than leather?

BioThane® is more durable, cleanable, stronger and easier to maintain. It is also readily available in different colors.

Is BioThane made in the USA?

Yes, BioThane® is manufactured in our only plant located in North Ridgeville, Ohio in the USA.

Is Beta BioThane?

YES! Beta® is a registered trademark owned by BioThane Coated Webbing Corp. Beta® is considered a "coating class" of BioThane®.
