

## **Get Of The Boat**

**I wanna get off the boat  
And go have some fun  
I'm getting tired  
My work here is done  
Going drinking this weekend  
Hope we make the Jetty tonight  
We just ran the line for the last time  
GPS went down to point nine  
There's a fair tide coming  
And everything is going to be alright**

**I'm towen logs down the Gulf of Georgia  
The sun is shining and feelin' fine and I  
Hope I get home today  
Everything's gonna be OK  
We got Nor Wes five at Roger Curtis  
The forecast is good and I'm not nervous  
Gonna get off this boat tonight and go have some fun**

**It's been eighteen days of ocean motion  
Bucking tides now I've got the notion  
I wanna go see my girl  
She's the best woman in the world  
Hey I like to work for this company  
So the next two weeks they gotta let me be  
Gonna get off the boat tonight and have some fun  
I wanna get off this boat tonight and go have some fun  
Oh Ya**
