

## Yhwh's Lunar/Solar Month

The foundation of how to determine the days of the years is according to this below scripture.

### *Genesis 1:14*

And Yah said, let there be **lights** in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for **days** and **years**.

The word lights in *Genesis 1:14* were recognized by the Israelites as a guide to determine time, which according scripture is the Sun and Moon. However, the concept of the new moon is the light from the sun which enables the moon to illuminate its light at night.

Each lunar month consist of 29 or 30 days and each month is a span of four weekly cycles. Per each weekly cycle is 7 days and on the 7<sup>th</sup> day according to scripture is the Sabbath. However, three recognized days according to scripture is Day of the new moon, Day of work and the Sabbath. Ezekiel 46:1 does indeed display these important relevant days. Nonetheless, new moon in itself is not part of the weekly cycle considering is not part of the 6 working days, nor is it a Sabbath. Ezekiel 46:1 and Amos 8:5 gives clear indication that “Day of the New moon” or “New moon day” is not a day of work (i.e. commerce/business).

The four Sabbaths per each month are to be counted after Day of the new moon, which do fall on the days of 8, 15, 22 & 29.

*For example*

New Moon Day - Day 1 (A non.working day)

Work day #1 - Day 2

Work day #2 - Day 3

Work day #3 - Day 4

Work day #4 - Day 5

Work day #5 - Day 6

Work day #6 - Day 7

7<sup>th</sup> day Sabbath - Day 8

According to common Rabbinical/Christian tradition, the Sabbath is every 7 days and is a continuous cycle. However, nothing could be further from the truth, considering nowhere in scripture implies that every 7 days is the Sabbath and that the 7 day cycle is continuous. New moon day is counted as a day within every biblical month and is not considered a day of work (i.e. commerce/business), nor is it part of the 7 day weekly cycle as per Ezekiel 46:1. The weekly cycles in scripture are broken cycles which started at the beginning of the month which is new moon day and ended at the end of the month.

Here below is a visual image that provides more details of how the days in ancient Israel were counted and recognized.

# YHWH Calendar

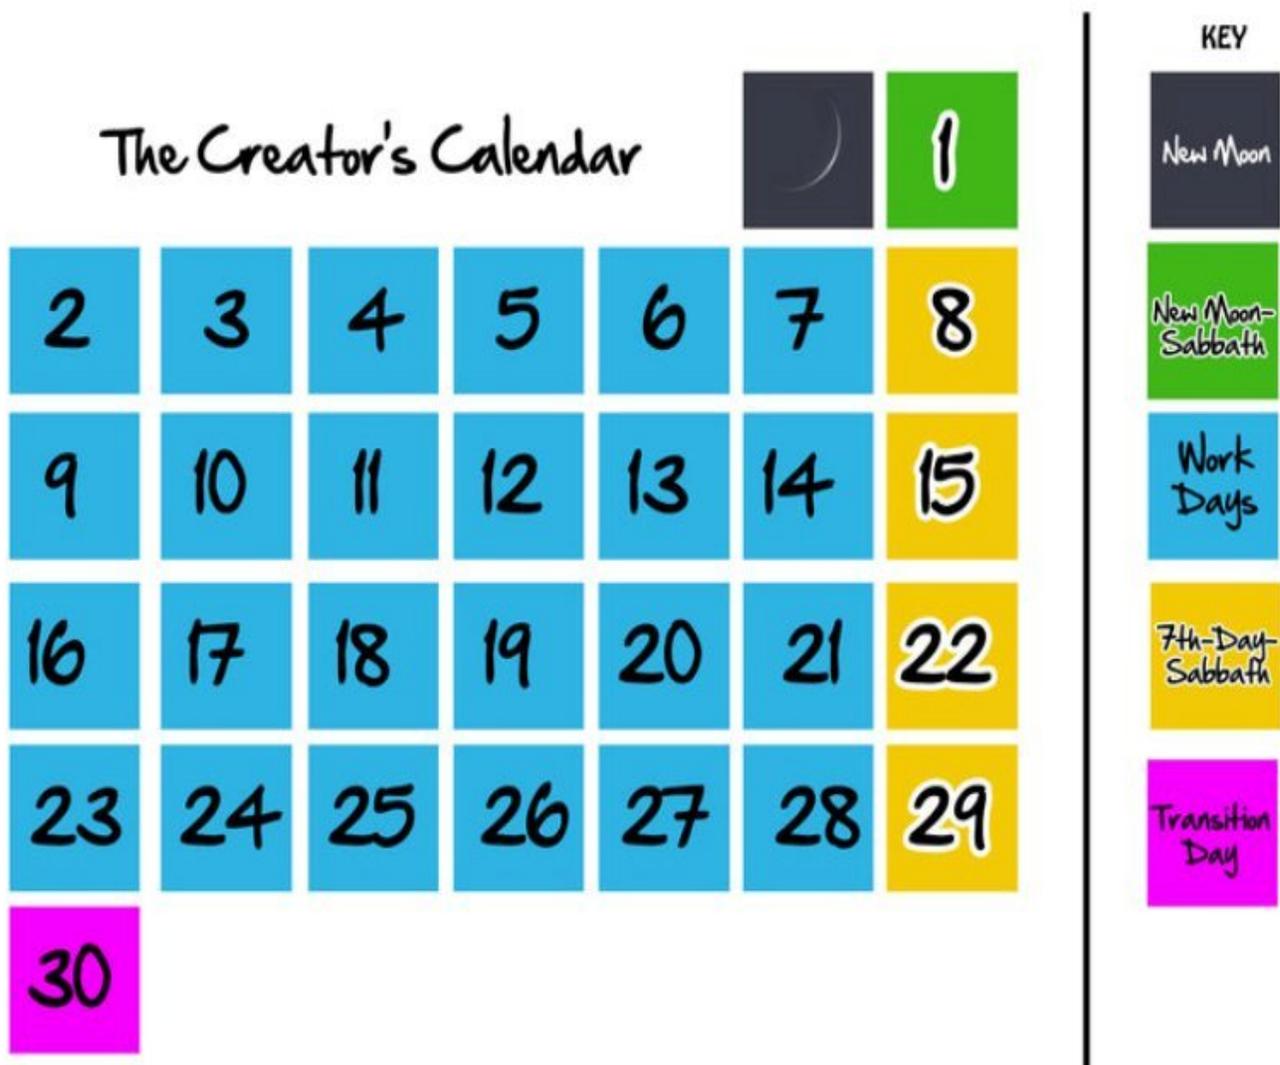

Eve of New moon    New Moon Day

1st week								
	2	3	4	5	6	7	8	
	Work day #1	Work day #2	Work day #3	Work day #4	Work day #5	Work day #6	7th Day Sabbath	
	2nd week							
		9	10	11	12	13	14	15
		Work day #1	Work day #2	Work day #3	Work day #4	Work day #5	Work day #6	7th Day Sabbath
		3rd week						
16			17	18	19	20	21	22
Work day #1			Work day #2	Work day #3	Work day #4	Work day #5	Work day #6	7th Day Sabbath
4th week								
	23		24	25	26	27	28	29
	Work day #1		Work day #2	Work day #3	Work day #4	Work day #5	Work day #6	7th Day Sabbath

New Moon Day    6 working days    7th day Sabbath

**Ezekiel 46:1-3**

***Ecclesiasticus 43:6 (Apocrypha)***

He made the moon also to serve in her season for a declaration of times, and a sign of the world.

As per ***Ecclesiasticus 43:6***, the moon was made to be a watch in the sky and as per ***Genesis 1:14*** the lights of the heavens were ordained by Yah to help us determine the days of the year.
