

## Sharing Map to ArcGIS

Create a map or open a map through “My Content”.

Once the map is visible, click “Share map on ArcGIS Online” button.

Give the map a “Title”, decide who to “Share with” and click “Share”.

Share Map on ArcGIS Online

Specify the details of the map to be shared.

Title:

USA Median Age 2014

Users also are able to share sites on ArcGIS through “My Content”.

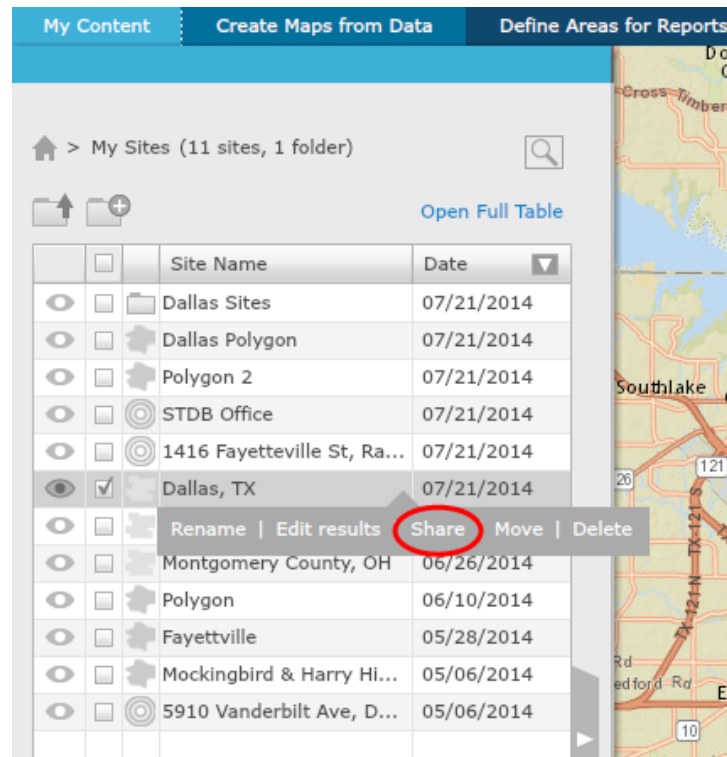

After logging into BAO, click “Sites” and then click “My Content” at the top left hand side of the page.

Click “My Sites” from “My Content”.

Check the box of the site you would like to share, hover your mouse over the site name and click **“Share”** to share the site on ArcGIS.

Choose who to share the site with and click **“Share”** to send to ArcGIS.
