				<p>Lagergren Nursery has partnered with Taking Root in an ambitious regional reforestation campaign. The goal is to plant 2 million trees by the year 2020 -- one for every resident of the 8-county tri-state area.</p> <p>Canopy cover provided by shade trees creates what's called "green infrastructure" -- delivering clean air, stormwater management services and public health benefits. Unlike grey (concrete) infrastructure, the benefits delivered by trees increase over time.</p> <p>Register your trees here -- <a href="http://www.takingroot.info/join-in/register/">http://www.takingroot.info/join-in/register/</a></p> <p>Learn more about green infrastructure here -- <a href="http://www.treebenefits.com/">http://www.treebenefits.com/</a></p>
