Our History of the Cates family is based on work by Ken Arnold. Ken's work is documented with ship manifests, books found in the Virginia State Library, court records, other official records and information from other researchers.

Ken has traced the Cates family back to a William Abraham Cates who married Margaret Agnes (unknown) and raised at least two sons in Colyton, Devon, England. Nearly 200 years later, William Abraham's great-great-great-grandson, Asa Cates, would be one of the early settlers of Coweta County, GA, arriving about 1832 from Newberry Dist., S.C.
