

HOW TO INCREASE YOUR FINANCIAL OPTIONS

By: Fountain Hendricks

Ecclesiastes 11:2

Increasing financial options means increasing financial opportunities. Intellectually, many people understand this. However, they do not know how to apply this information to their life. Increasing financial options is **NOT** primarily related to working multiple jobs. Unfortunately, most people believe this.

A VIABLE OPTION

A viable option is an alternative method to earn additional income. The key word in the above statement is **METHOD**. What **METHODS** are you creating to increase your financial options? **WHEN YOU ESTABLISH DIFFERENT METHODS YOU ARE CREATING NEW**

OPTIONS. Working three jobs is **NOT** creating three methods.

Investing in five companies is **NOT** creating five methods. You can diversify your resources in one avenue. However, diversifying resources is not creating new methods. A new method is a new **ROUTE** or **ENDEAVOR**. When a person has learned to increase their financial options the **METHODS** in which they earn money will expand.

Increasing financial options might entail you building an online business. Working a job and investing in stocks. A person who understands how to increase their financial options will know how to spread themselves among different sectors of the world.

KING SOLOMON'S WEALTH WISDOM

Ecclesiastes 11:2 says, "*Invest what you have in several different businesses because you don't know what disasters might happen.*" King Solomon was the wisest man to walk

the earth. He was extremely wealthy. He understood how to increase his financial options. He said the best way to increase financial options and opportunities is to invest in **DIFFERENT** businesses.

The idea behind investing is giving something with the expectation of receiving a return. What businesses could you give your **RESOURCES** and **TIME** to that will give you a return? It may be short term or long term. There are **MANY DIFFERENT** businesses you can invest in, to expand your options.

You can invest your money into a Roth IRA, stock portfolio, international currency, digital currency, a subscription business, etc. King Solomon attained his wealth by investing in **DIFFERENT** ventures. Everything he put his resources toward **ALWAYS** produced a return. 2nd Chronicles 9:13-29 gives us a vivid picture of how King Solomon attained his wealth.

King Solomon **RECEIVED TAXES** from traders and merchants. The kings and governors of Arabia **BROUGHT** him silver and gold. King Solomon **MADE ITEMS** of gold to create tradable value for himself. King Solomon used his **GIFT OF WISDOM** to attract resources to himself.

He was also in the **IMPORT** business. He imported horses from Musri and from every other country. King Solomon increased his financial wealth by involving himself in **DIFFERENT** ventures so he could never be without.

King Solomon kept increasing his options which inevitably expanded his opportunities. Follow the road King Solomon paved. Don't work three jobs without investing. Work one job and invest in three **DIFFERENT** businesses.

Keep this in mind. Working a job can only give you a return on your time. However, investing in different businesses will give you a return on your money.

THE POOR GETS POORER. THE RICH GETS WEALTHIER.

Poor people remain poor because they only get a return on their time. Poor people spend their time to make money. This method has **PROVEN** to be unfruitful and unproductive. Rich people become wealthy because they get a return on their money.

Rich people spend their money to make money. This method has **PROVEN** to be beneficial. When you learn **HOW** to invest in **DIFFERENT** businesses you will increase your financial options.
