

Out of Stock means Out of Production. The **PC-250⁺** Parts Counter helps prevent a shortage of parts from costing you thousands of dollars in a production shutdown.

The **PC-250⁺** Parts Counter is designed for counting surface mount parts in tape and reel, safely and quickly. Parts are handled without kinking or bending the tape. The design of the **PC-250⁺** allows for bidirectional parts counting, subtracting when the direction of tape travel is reversed.

The **PC-250⁺** also provides an excellent quality inspection platform. While counting, each pocket can be checked for proper part placement and tape adhesion. This unit is a necessity if you are active in the SMD taping of parts inventory process.

FEATURES:

- Bidirectional counting that includes 2 mm pitch
- Accurate counting of any device in embossed or punched carrier tape black or clear
- Four AA batteries allow portability
- Accepts reel widths from 8 mm to 56 mm
- Three-button operator interface simplifies pitch setting
- Accepts 7" and 13" reel diameters with standard arms and 22" reels when optional extenders are used
- Dual hand crank for ease of operation
- All metal construction and an attachment point provides ESD protection for sensitive devices
- Dimensions: height 12" (30 cm) width 30" (76 cm) depth 16" (40 cm)
- Power required: 120/230 VAC, 50/60 Hz Weight: 14.5 lbs (6.4 Kg)
