## Message from the Editor-in-Chief:

Hi, my name is Russell Handy and that is me on the left in the picture sitting next to Mark Victor Hanson. I'm the Founder and Publisher of NextStopIncome.com Magazine. When I wanted to start my website business I went to Google and typed in "how to start an internet business" this is the actual results shown in Google About 7,480,000 results as of April 25, 2011. 7 MILLION RESULTS is amazing and it made me say to myself where do I begin. I've been running my website magazine business for over 2 years and I really believe that I have given you my best picks for 50 websites that can really help you with your internet business. I personally use these 50 websites as a great resource to stay informed, educated and inspired on how to run a successful website business. ### Grace Daly Founder of GraceDaly.com

Hello everyone, I'm blessed to know Grace as a friend and she is a true inspiration to me. Grace runs [GraceDaly.com](http://GraceDaly.com), she does coaching and mentoring and she also writes a monthly column called the Daly Dish - which covers the Retail Facilities Industry that Grace has worked in for 25 years. Grace is a perfect example of how a person can change their life by "following their bliss" by starting an online business and being in charge of their own financial independence.

**You can purchase 2 of Grace's books titled The Seven Success Keys for the Retail Facilities Professional and Everyday Inspiration at her website.**

## Louis Lautman Founder of YoungEntrepreneurSociety.com

I attended Louis Lautman's **YES Millionaire Training Event** on April 23, 2011 in New York City. I highly recommend for anyone to attend this seminar because you can learn how successful entrepreneurs start, run and continue to build a successful business. Louis is very inspirational in the fact that he had a vision to do a movie about successful men and women that started successful businesses and in result became self-made millionaires from their businesses. If you have not seen the **The YES Movie** than I highly recommend that you purchase the movie and watch it. Louis said this at the YES Millionaire Training Event and this really stuck in my mind. **Louis said, it doesn't matter what has happened to you because it's not happening NOW !!!**
