

Sunright® SPF 35

Designed to work harder when your skin needs it most

Product Format

White cream in a flexible tube with a flip-top cap.

Size

100 ml

Product Overview

Prolonged sun exposure leaves your skin damaged and stressed. Sunright® SPF 35 offers water-resistant, broad-spectrum protection against UVA, UVB and infrared rays for the days you are out in the sun for extended hours. Designed to work harder when your skin needs it most, this advanced sunscreen features heat shock proteins - a unique technology that enhances the skin's ability to protect against heat and UV stress, ensuring optimum cellular health. With the added benefit of peppermint extract to limit irritation, this formula is ideal for use on the face and body. Safeguard your skin with Sunright® SPF 35.

Target Audience

Families or individuals of all skin types and ages (except infants under six months old).

Product Benefits

- Heat shock proteins enhance the skin's ability to protect against heat and UV stress.
- Peppermint extract limits irritation by inhibiting the release of key inflammation transmitters.
- Shields skin from UVA and UVB radiation that contributes to skin damage and premature ageing.
- Provides broad-spectrum protection.
- Water-resistant.
- Formulated for sensitive skin.

Key Ingredients

- **Heat shock proteins** – a unique technology that enhances the skin's ability to protect against heat and UV stress, ensuring optimum cellular health.
- **Mentha piperita (peppermint leaf extract)** – a skin-soothing extract that helps reduce skin sensitivity and promotes a feeling of well-being.

- **Green tea extracts (Tēgreen 97®)** – a proprietary extract of green tea catechins, which are powerful antioxidants that scavenge cell-damaging free radicals.
- **Sealastin** – helps protect the skin's support structures, promoting healthy collagen and elastin levels for skin suppleness.

Usage/Application

Apply a generous amount to cover all exposed areas. Apply evenly on your body 30 minutes before sun and water exposure. Reapply regularly to maintain protection, especially after perspiring, swimming or towelling.

Warning: reducing the quantity of product applied will lower the level of protection significantly. Avoid contact with eyes. This product contains Oxybenzone.

Complementary Products

- **Moisture Restore Day Protective Lotion SPF 15** – features colourless carotenoids to enhance the skin's natural resistance to the environment and shields against skin-ageing UVA and UVB rays.
- **Perennial® Intense Body Moisturizer** – a rich body moisturiser that promotes cellular durability, helping to reinforce the skin's natural defence mechanisms and protect against external aggressors.
- **Enhancer Skin Conditioning Gel** – soothes and nurtures the skin with conditioning panthenol and soothing aloe vera.
- **Nu Colour® Tinted Moisturizer SPF 15** – provides vital protection from UVA and UVB radiation while enhancing your natural skin tone with sheer colour.

Sunright® SPF 35

Frequently Asked Questions

Can children use this product?

Adults and children six months and over can use Sunright® SPF 35 products. Parents should consult a doctor for children under six months.

Is Sunright® SPF 35 waterproof?

Sunright® SPF 35 is considered water-resistant and allows 80 minutes of uninterrupted water play without having to reapply.

What is the proper application of sunscreen?

Initially apply your sunscreen to dry skin approximately 30 minutes before going outside. If you are going to be out in the sun for long periods of time you need to reapply your sunscreen every 80 minutes.

How much sunscreen do I need to apply?

Many people apply only half of the recommended amount. Make sure you apply enough by following the two-finger rule: squeeze sunscreen on the length of your middle and index fingers. Then apply this two-finger amount to each of the following areas: head, neck and face; left arm; right arm; right shoulder; left shoulder; upper back; lower back; upper front torso; lower front torso; right upper leg and thigh; left upper leg and thigh; left lower leg and foot; right lower leg and foot.

What does SPF stand for?

SPF stands for Sun Protection Factor. SPF is a factor of how long you can remain unprotected in the sun without burning. For example, if you begin to burn after 10 minutes in the sun, then applying a sunscreen with an SPF of 35 will allow you to remain in the sun for 350 minutes before you begin to burn. Remember that sunscreen should be used in conjunction with other measures such as protective clothing and a wide-brimmed hat.

Ingredients

Active Ingredients: Octinoxate (7.0%), Titanium Dioxide (4.264%), Oxybenzone (3.0%).

Ingredients: Water (Aqua), Butylene Glycol, Isononyl Isononanoate, Cyclopentasiloxane, Hexyl Laurate, Ethylhexyl Stearate, Cetyl PEG/PPG-10/1 Dimethicone, Polyglyceryl-4 Isostearate, Dimethicone Crosspolymer, Glycerin, *Aloe Barbadensis* Leaf Juice, *Prunus Amygdalus Dulcis* (Sweet Almond) Oil, *Chlorella Vulgaris* Extract, *Mentha Piperita*
