

## **Dave Fall**

## **Senior Vice President, Operations, C<sup>2</sup> Technologies, Inc.**

Dave Fall is the Senior Vice President of Operations at C<sup>2</sup> Technologies, Inc., a leading provider of performance improvement, strategic human capital management, and IT solutions for DoD, Federal Civilian, and private-sector clients. His responsibilities include coordination and oversight of training, human capital management, change management, strategic communication, and workforce development projects at C<sup>2</sup>. He oversees state-of-the-art development centers in Vienna, Oklahoma City, and Newport News, and a workforce of 130 full-time professionals and numerous part-time consultants, working on over 100 active projects. His primary area of expertise and interest is in learning technologies, having spent most of his early career as a courseware programmer and lead technologist.

Before joining C<sup>2</sup> in 2009, Dave spent 3 years as VP of Government Learning Solutions at Vangent, Inc. (now a part of General Dynamics) where he led the growth of government learning and human capital management business, helping the organization move from \$3M in revenue in 2006 to over \$15M in 2009.

Prior to his arrival at Vangent, Dave spent 5 years working in leadership positions within the learning and human capital organization at IBM. His work included providing executive oversight of Federal learning and HCM business for civilian agencies, managing Federal learning and HCM business development, and managing complex learning and HCM projects.

Originally a high school computer science and math teacher, Dave's corporate career began in 1990 when he joined Interactive Media Corporation as a programmer, courseware developer, ISD, and project manager. He holds a Bachelor of Arts degree in Mathematics Education and a Masters of Education degree in Instructional Systems, both from the University of Central Florida.
