Dec. 1st	Help with Watson Train Polar Express

Charlie has a great love for farming.

While he was growing up he drove Minneapolis tractors for his Dad on the farm. In 1981 he received a 1947 Model Z MM tractor from his Aunt. This inspired him to begin to collect MM tractors and equipment.

Suddenly this hobby turned into a museum to preserve the past for the future.

You will find at the museum the original barn containing 6 rooms (summer kitchen, late 1920's kitchen, 50's room, parlor, dining room, and bedroom) Plus main room used for music events.

The South barn has been turned into a 1900's main street housing a dress shop, barber shop, doctor's office, assay-survey office, general store & saloon. On the grounds with the two big barns are antique tractors, & equipment, a one room school house, a log cabin, a cedar church, sheriffs office and plots of various plants and crops. A new large building plus two other buildings house a big share of the equipment
