

Baby Sun Block spf 15

To protect baby's vulnerable skin, apply the Baby Sun Block: a *photo-biologically* tested and approved sun block to stop UVA and UVB rays.

Due to baby skin's high absorbency potential, doctors recommend never to use a sun block with a higher spf than 15. Remember, a baby placed in the shade or in a car is not protected against harmful rays. Protect your baby by covering her with Annique Baby Sun Block from head to toe. The sun block is water-resistant and provides protection in or out of the water.

Baba Sonblok sbf 15

Om die kwesbare babavel te beskerm, wend die sonblok aan: 'n *foto-biologies* getoetste en goedgekeurde room wat UVA- en UVB-strale weghou van die vel.

Weens die hoë absorbeerbaarheid van baba se vel, beveel dokters aan dat mens nie 'n hoër sbf as 15 gebruik nie.

Onthou, 'n baba in die skadu of in 'n motor is net so blootgestel aan skadelike strale. Beskerm jou baba daaglik met die waterbestande Annique babasonblok wat voldoende beskerming binne en buite die water bied.

Baby Skin Barrier

This firm white cream with zinc dioxide forms a protective layer on the skin, protecting it from soil, moisture and friction which can contribute to nappy rash. The protective film allows the skin to breathe and should be used after every nappy change.

The special extract of Rooibos reduces the occurrence of an allergic skin reaction and calms irritated and red skin.

Baba Velskerm

Hierdie ferm, wit room met sinkdioksied laat 'n beskermende lagie op die vel, wat verhoed dat vogtigheid en skawing bydra tot luiertuitslag. Die beskermingslagie laat die vel toe om asem te haal en moet na elke doek-ruiling aangewend word. Die spesiale ekstrak van Rooibos verminder die voorkoms van allergiese reaksies en kalmeer geïrriteerde vel.

Baby Detergent & Softener

Contains no colourants or enzymes. Leaves fabrics soft, fragrant and clean. Contains the unique Rooibos extract to inhibit skin irritations.

The detergent and softener are suitable for hand and machine wash.

Baba Wasmiddel en Versagmiddel

Bevat geen kleurstowwe of ensiemes nie. Laat klare sag, geurig en skoon. Bevat die unieke Annique Rooibos ekstrak wat selfs aan klere sy anti-allergiese eienskappe verleen en irritasies voorkom. Die was- en versag-middels is geskik vir hand- of masjienwas.

Baby Linen & Room Perfume

Annique Baby Linen and Room Perfume refreshes baby's room and linen with the unique, warm Annique Baby perfume you love so much. Safe, alcohol free and non sensitising – ideal for baby linen. For room and linen use only. Avoid contact with eyes. Not to be swallowed. Keep out of reach of children. Do not use directly on baby's skin – safe for adult use as perfume.

- Room freshener for any room
- Spray on towels and linen
- Alcohol free body perfume
- Spray in underwear drawer
- Spray on curtains to remove smoke odours

Baba Linne- en Kamersproei

Annique Baba Linne en Kamersproei verfris baba se kamer en linne met die unieke, warm Annique babaparfuom. Veilig, alkoholvry, en veroorsaak nie sensitiewe reaksies nie – ideal vir babalinne. Sproei op babalinne en in die kamer as 'n verfrissende parfuom. Slegs vir kamer en linne. Vermoed kontak met oë. Moenie sluk nie. Hou buite bereik van kinders. Moenie direk op baba se vel gebruik nie – veilig vir volwassenes om as parfuom te gebruik.

- Kamer verfrisser vir enige kamer – ideaal vir huiwerende pappas
- Spuit op handdoeke en linne
- Lyfparfuom sonder alkohol
- Spuit in onderklerelaai
- Spuit op gordyne om rook reuke verwyder

The rooibos people
Established 1971

rooibos miracle herb

Discovering Rooibos' miracles

Generations of South Africans have been enjoying the natural sweet and revitalising taste of Rooibos since its discovery by botanists in 1772.

Little did they realise the powerful and natural healing properties of this rare and unique plant from the cold, windy, south-western tip of Africa.

1968 – an amazing discovery

Dr. Annique Theron stumbled on the natural healing powers of Rooibos when, one sunny April morning in 1968, she warmed her allergic baby's bottle with warm Rooibos tea.

Annique was amazed at the instant calming, soothing and healing effect it had on her baby daughter of fourteen months, Lorinda.

Annique set out to investigate this tea's healing potential and found she stood alone in her discovery of its anti-allergic qualities. However, she soon found hundreds of mothers with similar problems varying from food allergies to eczema, insomnia and hyperactivity in their babies and children. Annique published her findings about allergies in children and adults in her book: "Allergies: An Amazing Discovery".

dr. Annique Theron with daughter Lorinda
the rooibos story: dr. Annique discovered the anti-allergic properties of South Africa's indigenous herb – Rooibos

Nutrition from Mother Nature

Because Rooibos tea is low in tannin, it won't deplete baby's natural iron reserves during pregnancy or feeding while the protein absorption and metabolism remain undisturbed.

It also contains calcium to ensure normal development of teeth, bones and the nervous system, as well as magnesium and zinc for healthy skin and hair.

Because Annique's Rooibos tea has a natural sweet taste there is no need to add sugar or honey to baby bottles. Parents will love it too.

Help for adults and babies

Rooibos tea has been a trusted remedy for the last three decades among South African mothers. Now Rooibos' miraculous properties to cure and soothe are backed not only by scientific research and international recognition, but also by thirty years of mothers' hands-on experience. If your little one suffers from colic, insomnia, food allergies, stomach cramps or eczema, Annique's Rooibos tea is the perfect answer to your problems.

It is simple to use; simply substitute the water of baby's bottle feed with Rooibos tea. Rooibos tea will benefit the digestive system, calm your child and ensure untroubled sleeping patterns.

Revealing research

In the 1980's Japanese and American scientists found a powerful and stable antioxidant called super-oxide dismutase in Rooibos tea.

In 1995 Infruitec, a South African research company, as well as Dr. Charlene Marais of the University of the Free State, found and verified that Rooibos tea did indeed have the following properties:

- Anti-allergic;
- Anti-spasmodic;
- Anti-bacterial;
- Anti-ageing;
- Anti-viral;
- Antioxidant; and
- No caffeine, and low tannin.

Rooibos tea is enjoying increasing popularity around the world.

Baby Rooibos Tea

Annique Baby Rooibos Tea is a unique tea indigenous only to the southwestern region of South Africa. Based on her first-hand testing, Dr. Annique compiled her findings in a book: *Allergies: An Amazing Discovery*, which was first published in 1974.

Rooibos is a miracle herb which contains natural fluoride, calcium, iron, copper and a high concentration of antioxidants, the life-force of health and longevity.

Baba Rooibostee

Die Annique Baba Rooibostee is uniek en kom slegs in die suid-westelike deel van Suid-Afrika voor. Gebaseer op eerstehandse toetsing van haar ontdekking, het Dr. Annique 'n boek geskryf: *Allergies: An Amazing Discovery*, wat die eerste keer in 1974 gepubliseer is. Rooibos is 'n wonderkruid met natuurlike fluoried, kalsium, yster, koper en 'n hoë konsentrasie van anti-oksidente – noodsaaklik vir gesondheid en langslendheid.

Baby Shampoo

The Annique Baby Shampoo's ultra-mild, no-tears formula is gentle enough to use from birth. The Annique Baby Shampoo has been pH-formulated for baby's hair, to gently cleanse the hair without damaging the delicate texture. Since Rooibos has been found to be beneficial when applied to the scalp it was added as an essential ingredient.

Baba Sjampoe

Babasjampoe se geen-trane formule is sag genoeg om van geboorte af te gebruik. Die pH-balans van baba se delikate hare verskil van volwasse hare en die babasjampoe is spesiaal geformuleer om sagkens te reinig sonder om die delikate struktuur te beskadig. Rooibos kan bydra tot die kalmering en bevoogting van die kopvel.

Baby Moist Silky Bar

Cleansing delicate baby skin needs a gentle touch. The baby soap contains the gentlest of ingredients combined with our unique Rooibos extract to moisturise, soothe and calm dry and delicate skin.

Baba Vogseep

Die reiniging van delikate babavel het 'n sagte hand nodig. Die babaseep bevat skadelose bestanddele gekombineer met ons Rooibos ekstrak om droë, delikate velletjies te bevog en te kalmeer.

Baby Bath

This is an all-time bathtime great! It may be used as a shampoo, bubble bath and body wash. This makes it the ideal travelling companion. Annique's patented Rooibos extract is included to relieve skin irritations and dryness.

Baba Badtyd

Die alles-in-een badtyd wonder! Dit kan as sjampoe, borrelbad of lyfseep gebruik word, wat dit die ideale reisgenoot maak. Die gepatenteerde Annique Rooibos is by die formule ingesluit om velirritasie en droogheid te voorkom.

Baby Body Lotion

The baby body lotion should be used as a cleanser for new born babies. The cream leaves an invisible layer to protect the skin against drying, chafing, and irritation, while soothing and moisturising at the same time.

Baba Lyfroom

Die lyfroom moet as reiniger vir pas-gebore babas gebruik word. Hierdie room laat 'n onsigbare lagie op die vel wat dit beskerm teen skawing, droogheid en irritasie terwyl dit die vel bevog.

Liquid Baby Powder

A pure, soft, white cream with a powder base. This unique cream smoothes on easily and dries quickly into a powdery film, which leaves baby dry and comfortable with a heavenly smell. The liquid powder is safe to use since it doesn't cause powder clouds which may cause allergic reactions or even asthma.

Baba Poeierroom

'n Suiwer, sagte, wit room met 'n poeierbasis. Baba-poeierroom streel maklik aan die vel om vinnig 'n poeierlagie te vorm wat baba gemaklik en droog laat. Die poeierroom is veilig om te gebruik, want dit maak nie 'n wolk wat allergiese reaksies of asma kan veroorsaak nie. Dit bevat Rooibos en is dus ideaal vir 'n sensitiewe vel.
