Discovering Rooibos' Miracles

Dr. Annique Theagen stumbled on the natural, healing powers of Rooibos when, one sunny April morning in 1988, she warmed her allergic baby's bottle with warm Rooibos tea. Annique was amazed at the instant calming, soothing and healing effect it had on her baby, daughter of fourteen months. Annique published her findings on allergic babies, children and adults in her book: "Allergies: An Amazing Discovery".

Revealing research

In the 1980's Japanese and American scientists found a powerful and stable antioxidant called super-oxide dismutase in Rooibos tea.

In 1995 Infrutec, a South African research company, as well as Dr. Charelne Marais of the University of the Free State, found and verified that Rooibos tea did indeed have the following properties:

- Anti-allergic;
 - Anti-spasmodic;
 - Anti-bacterial;
 - Anti-ageing;
 - Anti-viral;
 - Antioxidant; and
 - No caffeine, and low tannin.
- Rooibos tea is enjoying increasing popularity around the world.
