

FRACTAL POP-UP

Geometry H Lab

Unit: Similarity

You have practiced making your pop-up in class... now its time for the real deal.

Side view of 2 stages.
Three prisms total.

1. Make your own fractal pop-up to be displayed in the classroom. Be sure to include a string from which to hang the pop-up and to display the information card.
2. Include your name and class period.
3. The information card is required and must contain at least three pieces of information like
 - a. What is a fractal?
 - b. How are ratios used in creating your pop-up?
 - c. Other interesting information.
4. It must be creative and made with care. READ the rubric !

DUE DATE: ___TBD_____
